OF CONSERVATION VOTERS

# Hot List – Senate

WEEK of March 22, 2010

The **Maryland League of Conservation Voters** is pleased to present the “Hot List” – a detailed list of environmental legislation moving through the General Assembly *this week*. Our volunteers will deliver the Hot List to your office every Tuesday; it will also be emailed to your office. We hope you find this communication helpful and instructive as you tackle important environmental bills this session. If you have any questions, please contact Jen Brock-Cancellieri at [jbrock@mdlcv.org](mailto:jbrock@mdlcv.org) or 410-280-9855, extension 202.

## IMPORTANT BILLS TO WATCH

The environmental community’s top priorities are:

	<p><b>SB 140/SB 141: Protecting the Green Infrastructure Budget</b>  <b>Committee Hearing: Ongoing committee hearings in Budget &amp; Taxation</b>  <b>OPPOSE</b> - We urge you to reject the Department of Legislative Services’ proposals to cut the 2010 Chesapeake and Atlantic Coastal Bays Trust Fund and limit remaining funds to cover crops, to extend last year’s diversion of the Regional Greenhouse Gas Initiative (RGGI) Programs, to repeal mandated funding for the Department of Natural Resources Fisheries Service, and to eliminate the Maryland Environmental Trust.  <b>SUPPORT AS PROPOSED</b>          We must oppose cuts to Program Open Space, the Chesapeake Bay Trust Fund, the Heritage Structure Tax Credit (Historic Tax Credit), RGGI, and protect funding for our Environment, Natural Resources, Agriculture, and Planning agencies.</p>
	<p><b>SB 51: Three-Foot Bicycle Safety Bill</b>  <b>Sponsor: Senator Raskin</b>  <b>Floor Action: Third Reader Passed 43-0, Assigned to Environmental Matters</b>  <b>SB 624: The Shoulder Rule Bill</b>  <b>Sponsor: Senator Frosh</b>  <b>Committee Hearing: Favorable with Amendments Report by Judicial Proceedings</b>  <b>SB 760: Consolidated Transportation Program</b>  <b>Sponsors: Senators Pugh and Harrington</b>  <b>Committee Hearing: Already Heard</b>  <b>SUPPORT</b>  <b>Smarter Transportation Choices for Maryland (3 bills):</b>          In a time of scarce transportation dollars, we need to make sure we are investing state funds wisely. SB 760 will establish smart growth criteria for funding transportation projects to make it easy for the state to choose proposals that ensure our transportation and land use decisions work together to provide more travel choices to Maryland citizens, especially for those who do not own cars. It will also reduce environmental damage from transportation projects and improve access to jobs. The other bills will make the roads safer for bicycling.</p>
	<p><b>SB 686: Watershed Protection and Restoration Act</b>  <b>Sponsor: Senator Raskin</b>  <b>Committee Hearing: Already Heard</b>  <b>SUPPORT</b>          In order to restore the health of the Chesapeake Bay Watershed, each city and county throughout the region needs funding to invest in its community to reduce the polluted runoff poisoning our waterways. This legislation will give these local jurisdictions a dedicated funding source by assessing a surcharge on impervious surfaces to clean up their rivers and the Bay, create green jobs, and leverage additional dollars from the state and federal government for watershed protection and restoration.</p>

<p><b>Maryland LCV Priority</b></p>	<p><b>SB 420: Stormwater Management</b>  <b>Sponsor: Senator Colburn</b>  <b>Committee Hearing: Already Heard</b>  <i><b>OPPOSE</b></i></p> <p><b>SB 1082: Stormwater Management</b>  <b>Sponsor: Senator DeGrange</b>  <b>Committee Hearing: Assigned to Rules</b>  <i><b>OPPOSE</b></i></p> <p>We oppose any rollbacks to the Stormwater Management regulations. Stormwater is the ONLY pollution source INCREASING loads to the Bay and its rivers. If we want healthy water, we have to step up reductions from development and redevelopment. Builders worry about their costs of meeting treatment requirements; however, it will cost more to retrofit after the fact. Developers can share the burden now, or taxpayers can foot the entire bill later. The regulations work as written since they allow ample flexibility for redevelopment projects to meet requirements in any number of ways.</p>
<p><b>Maryland LCV Priority</b></p>	<p><b>SB 910: Comprehensive Energy Planning</b>  <b>Sponsor: Senator Lenett</b>  <b>Committee Hearing: Already Heard</b>  <i><b>SUPPORT</b></i></p> <p>Requires the Department of Planning to oversee the creation of a state energy plan that is consistent with all state environmental laws and requires the Public Service Commission to review proposals from energy companies with respect to the state plan and environmental laws such as the Greenhouse Gas Reduction Act.</p>

In addition to our five priority issues and bills, we will also work on a number of other bills this session. If you have bills that you would like us to consider for the “Hot List” or submit testimony on, please contact Jen Brock-Cancellieri at [jbrock@mdlcv.org](mailto:jbrock@mdlcv.org) or 410-280-9855 x 202.
