

2009 Maryland General Assembly Scorecard

KEEPING SCORE FOR THE ENVIRONMENT SINCE 1979

MARYLAND
LEAGUE OF
CONSERVATION
VOTERS

For 30 years, the non-partisan Maryland League of Conservation Voters has served as the political voice for the environment. We advocate for sound conservation policies, promote environmentally responsible candidates, and hold individual elected officials accountable through our scorecards and reports.

Board of Directors

Catherine Stirling, *Development Manager*

Dear Marylander,

We are very excited to introduce the 2009 Maryland League of Conservation Voters' General Assembly Scorecard. In line with our mission as the political voice for the environment, we evaluate the performance of each of our Senators and Delegates on the conservation issues that matter most to Marylanders and best reveal the story of the 426th legislative session.

This year, the Maryland LCV saw some significant victories for our air, land, water, and people. Working with our advocate colleagues and legislative leaders, we passed the Greenhouse Gas Reduction Act to reduce our global warming pollution. We passed significant legislation to reduce nitrogen pollution in the Chesapeake Bay from septic systems, preserved vital sources of funding for cover crops and open space, and created stronger building energy efficiency standards. More and more, our elected officials recognize that investments in energy efficiency, creating green jobs, preserving open space, and protecting the Bay strengthens our economy and environment. The next step will involve genuine land use reform that tackles the problems of sprawl and traffic congestion while helping clean the Bay.

Ultimately, this scorecard is about YOU—the conservation voter. It is a tool for you to see how well your representatives

performed when it really mattered. We hope you'll spread the word, and tell your Senators and Delegates how you feel about their score. This year, we find ourselves with a House divided. Looking inside the numbers reveals a strong pro-conservation majority with 85 of the 141 delegates scoring 80% or higher. The Senate is a different story. 25 of the 47 Senators scored between 20% and 80%, a gaping “mushy middle” which is to blame for the demise of many good environmental bills.

Once again, the votes in this scorecard were chosen by Maryland LCV's Board of Directors in conjunction with our friends at Environment Maryland. We wish to thank everyone who helped us this year including our designer, Julie Burris, our hard-working interns, and Dave O'Leary. An interactive online edition of the scorecard is available at www.mdlcv.org and you can call us for an extra copy at 410-280-9855.

Sincerely,

Cindy Schwartz, *Executive Director*

Senate Committee Votes

Budget and Taxation

SB 274 Tax Increment Financing for Transit-Oriented Development (Administration bill) This bill encourages people to live and work around mass transit locations by allowing property tax incentives for smart growth. The correct vote is yes. The bill passed unanimously and was later signed by the Governor.

HB 309 Maryland Heritage Structure Rehabilitation Tax Credit (Administration bill) This smart growth bill would have reauthorized an important program for restoring historic buildings. The correct vote is yes. The bill died in this committee.

Education, Health & Environmental Affairs

SB 278 Greenhouse Gas Reduction Act (Senator Pinsky, Delegate Barve) This bill will reduce global warming pollution by 25% below 2006 levels by 2020. The correct vote is yes. The bill passed and was later signed by the Governor.

HB 1569 Standing (Senator Frosh, Delegate McIntosh)/ Pinsky amendment This bill allows citizens and association the right to challenge in court permit decisions that affect our environment, natural resources, and Critical Areas. The Pinsky amendment extended the amount of time citizens and associations have to develop the record for judicial review. The correct vote is yes. The amendment passed, as did the underlying bill which was later signed by the Governor.

SB 625 Energy Efficient Building Codes (Senator Frosh) This bill requires buildings to comply with stronger international stan-

dards for energy efficiency. The correct vote is yes. The bill passed and was later signed by the Governor.

SB 672 Stormwater Surcharge (Senator Raskin, Delegate Hucker) This bill would have required counties to assess a fee to pay for stormwater management projects. The correct vote is yes. The bill died on the Senate floor.

SB 554 Septics (Senator Lenett, Delegate Lafferty) This bill requires nitrogen removing technology on new septic systems in the Critical Areas. The correct vote is yes. The bill passed and was later signed by the Governor.

SB 408 Water Pollution Penalties (Senator Simonaire) This bill increases five fold the penalties for certain violations of water pollution controls. The correct vote is yes. The bill passed and was later signed by the Governor.

Finance

SB 992 Green Jobs-Welfare to Work (Senator Kelley, Delegate Rosenberg) This bill accesses federal stimulus funds to train current and former welfare recipients for jobs in the emerging clean energy economy. The correct vote is yes. This bill passed and was later signed by the Governor.

HB 15 BPA Ban (Delegate Hubbard) This bill would have banned BPA, a toxin typically found in baby bottles. This vote was on a motion to kill the bill. The correct vote is no. The bill died.

HB 1567 Clean Energy Loan Programs (Delegate Hecht) This bill provides loans for commercial and residential energy efficiency upgrades that are paid back by a modest surcharge on the individual's property taxes. The correct vote is yes. The bill passed and was later signed by the Governor.

Senate Floor Votes

SB 278 Greenhouse Gas Reduction Act (Senator Pinsky, Delegate Barve) This bill will reduce global warming pollution by 25% by 2020. The correct vote is yes. The bill passed 36–9 and was later signed by the Governor.

SB 666 No Net Loss of Forest (Senator Pinsky, Delegate Bobo Middleton amendment) This bill strengthens the standards developers must follow when designing a new project that affects forest land. The Middleton amendment exempted the utility companies from compliance. The correct vote is no on this amendment. The underlying bill passed with the amendment 33–14 and was later signed by the Governor.

SB 1065 Standing (Senator Frosh, Delegate McIntosh) This bill allows citizens and associations the right to challenge in court permit decisions that affect our environment, natural resources, and Critical Areas. The correct vote is yes. The bill passed 36–8 and was later signed by the Governor.

SB 555 Cellulosic Ethanol (Senator Middleton, Delegate Hubbard) This bill would have created incentives and mandates for production, distribution, and sale of the next generation bio-fuels. The correct vote is yes. The bill passed 35–7 in the Senate but died in the other chamber.

SB 672 Stormwater Surcharge (Senator Raskin, Delegate Hucker) This bill would have required local governments to establish fees to reduce stormwater pollution. The correct vote is yes. The bill failed in the Senate 18–29.

SB 554 Septics (Senator Lenett, Delegate Lafferty) This bill requires nitrogen removing technology on new septic systems in the Critical Areas. The correct vote is yes. The bill passed 24–23 and was later signed by the Governor.

Appropriations

HB 268 Green Jobs–Welfare to Work (Delegate Rosenberg, Senator Kelley) This bill creates job training programs in energy efficiency and the renewable energy industry for current and former welfare recipients. The correct vote is yes. This bill passed and was later signed by the Governor.

HB 27 Defund the InterCounty Connector (Delegate Frush, Senator Pipkin) This bill would remove an important funding source for the InterCounty Connector, the most environmentally damaging and fiscally irresponsible transportation project in Maryland history. This vote was on a motion to kill the bill, so the correct vote is no. The motion carried, so the bill died.

House Floor Votes

HB 315 Greenhouse Gas Reduction Act (Delegate Barve, Senator Pinsky) This bill will reduce global warming pollution by 25% by 2020. The correct vote is yes. The bill passed 107–31 and was later signed by the Governor.

SB 666 No Net Loss of Forest (Senator Pinsky, Delegate Bobo) This bill strengthens the standards developers must follow when designing a new project that affects forest land. The correct vote is yes. The bill passed 108–23 and was later signed by the Governor.

HB 295 Growth—Indicators (Delegate Lafferty’s amendment) This bill, as amended, represented a good first step in real smart growth reform. This version directed state resources only to those counties that created more development around existing infrastructure and fewer projects that create sprawl. The correct vote is yes. The bill passed 95–42, but later died in the Senate committee.

HB 1305 Coal Ash—Beneficial Use/Beitzel Amendment (Delegate King) This bill required the Maryland Department of the Environment to develop rules regarding the beneficial uses of coal ash, a toxic byproduct of coal combustion. The Beitzel amendment would have stripped away MDE’s authority to make these rules. The correct vote is no. The amendment failed 35–94.

HB 176 Septics (Delegate Lafferty, Senator Lenett) This bill required nitrogen removing technology on new septic systems in the Critical Areas. The correct vote is yes. The bill passed 85–48 and was later signed by the Governor.

HB 1569 Standing (Delegate McIntosh, Senator Frosh) This bill allows citizens and association the right to challenge in court permit decisions that affect our environment, natural resources, and Critical Areas. The correct vote is yes. The bill passed 110–23 and was later signed by the Governor.
